

PREPARED
FOR | RedQ

We know every dollar matters when you're self-employed, which is why we've worked hard on our pricing across key lending segments, such as our Prime and SMSF products, so brokers have some of the strongest solutions in the non-bank market for their clients.

Brokers can access SE Prime rates from **7.07% p.a. and borrow up to 80% LVR**, with no risk fee and Alt Doc servicing options.

But SE Prime isn't just about a competitive rate. There is flexibility to help your self-employed clients:

- access cash out;
- pay out ATO debt and
- consolidate other debts.

Because when you're self-employed, every scenario is different. That's why flexibility, common sense and competitive pricing matter.

Need a hand with a scenario? Your BDM is ready to help!

Rates for new business are available via [Introducer Connect](#), effective October 14, 2026.
